

# Connecting you to what's next in **Interconnect Technology**

As a leading global supplier of interconnect products, Molex is focused on designing and developing innovative technologies across multiple industries. Molex's portfolio is among the world's most extensive – over 100,000 reliable products from electronic, electrical and fiber optic interconnects to switches and application tooling. Molex is recognized throughout the industry for designing some of the smallest connectors geared for microminiature applications. With more than 70 years of experience, Molex continues to provide innovative interconnect solutions for your newest design needs.
