HARTING Han-Yellock® Connector System

RoHS Compliant **This product is RoHS compliant.**

HOODS/HOUSINGS

The Han-Yellock® interface consists of a housing, bulkhead mounting on the housing side and a carrier hood with cover on the cable side.
Han-Yellock® offers the following features when assembling components:

- Han-Yellock® modules require only male crimp contacts
- The PE is contacted on the housing; it can be connected with crimp and/or Quick Lock contacts
- The Han-Yellock® hoods/housing are not plug-compatible with all other Han® hood/housing series

The Han-Yellock® system can be used with a variety of insulators and contact inserts in order to establish an interface.

Features:

- Two-part hoods for easy wiring and testing
- High robustness via an internal locking mechanism
- Earthed contacts PE in crimped or Quick Lock termination technique
- Protection cover retrofit on housing side

Hoods

MODULES

Features:

- Snap-in assembly from mating side and from termination side
- Wiring with male contacts only
- Bus bar within bridge attachements
- Finger safe design
- Fast and tool-less assembly

For quantities greater than listed, call for quote.

MULTIPLIER MODULES

Features:

- Visible bridge position from mating side and from termination side
- Multiplier can be placed on the housing side or on the cable side
- Bus bar functionality for 1 up to 5 contacts
- Fast and easy exchange

For quantities greater than listed, call for quote.
