O-Ring & HEX Nut

TE Connectivity's ALCOSWITCH Anti-Vandal switch series is designed for security and reliability in a variety of panel mount industrial, medical, and building applications. The large pushbutton and available LED indicators illuminate the switch and allow for an easy user interface. The Anti-Vandal series is available in panel sizes of 16, 19, 22 and 25 mm, and with various pushbutton symbols including Spot, Ring, and Power Logo. Switches are sealed to IP67 and available in single and double pole configurations.

TE's Vandal Resistant switches are dimensionally identical with other popular brands, making them extremely suitable for use in existing designs. The Anti-Vandal product group is available in a Standard, Piezo, Capacitive, and 26A High Current options.
