SAFETY & EMC

DESCRIPTION

This series offers a 4kVDC/1sec isolation making it ideal for both industrial, medical, and other sophisticated high end applications. The compact 1"x1" non-conductive plastic package ensures high power density without compromising performance, operating with derating up to 110°C. Short circuit protection, undervoltage lockout, and remote on/off control is standard, and the converter is certified according to UL/IEC/EN62368-1.
