DIMENSIONS (mm)

All dimensions in mm.

Dimensions in blue show the mounting dimensions of the cable.

Dimensions in the figure may vary depending on the type of cable connected. The information listed here should be used as a guide for reference when designing.

Install the operator interface into a panel cut-out by tightening the six mounting clips (supplied with the operator interface) to a torque of 0.5 to 0.6 N·m. Do not tighten with excessive force, otherwise the operator interface may become distorted. Also, waterproof characteristics may be lost.
