Article No. 594-11789
Type TAG11L

HellermannTyton white polyester labels are ideal for marking small electrical and electronic components, such as EPROMS, Integrated circuits, as well as the circuit board itself. Printed labels can withstand the soldering process and survive flux removal when the board is washed. HellermannTyton's 789 material is designed for use on flat surfaces and can also be used to identify connectors, buttons and just about anything requiring permanent, durable, high temperature and UV resistant marking.
