

Remote Control Module for Healthcare Products - for Medical Power Modules/Inverters/Chargers

MODEL NUMBER: HCFLUSHRUI

Remote control module allows you to monitor and control a Tripp Lite medical power module connected to a mobile medical cart.

Features

Remote Control Module Allows Monitoring and Control of Your Medical Power ModuleThe HCFLUSHRUI is designed to work with medical power modules, including the HC150SL, HCINT150SL, HC350SNR, HC350SR and HCINT350SNR. It connects to the power module using the included Cat5 cables and lets you control the inverter/charger from as far as five feet away. The included faceplate allows front-panel mounting, but the unit's built-in mounting slots also accommodate rear-panel or below-dashboard installation.

Intuitive Front-Panel Indicators Provide Pertinent Info at a GlanceFront-panel LEDs monitor battery charge and power conditions. The molded plastic housing also includes an on/off button for instant one-touch control of the connected inverter/charger. Another button controls audio levels.

Highlights

- Designed to work with select medical power modules
- Controls a connected inverter/charger from up to 5 ft. away via Cat5 cabling
- Comes ready for immediate front-panel, rear-panel or below-dash mounting
- LED indicators monitor battery charge level and power status at a glance
- On/off button allows instant one-touch control of connected device

Applications

- Monitor battery charge level and power status of a Tripp Lite power module connected to a mobile medical cart in a hospital or other healthcare facility

System Requirements

- HC150SL, HCINT150SL, HC350SNR, HC350SR, HCINT350SNR or other compatible power module

Package Includes

- HCFLUSHRUI Remote Control Module for Healthcare Products
- Faceplate
- (2) Cat5 cables, 5 ft.
- Mounting hardware
