

4K HDMI to DisplayPort Active Converter (M/F) with USB Power, 6 in. (15.2 cm)

MODEL NUMBER: P130-06N-DP-V2

Connects an HDMI video/audio source device to a 4K DisplayPort monitor.

Features

Connects an HDMI Audio/Video Source to a DisplayPort Monitor

The P130-06N-DP-V2 lets you connect your existing DisplayPort monitor or projector to an HDMI audio/video source, like a Blu-ray player, laptop or media server. Ideal for home theaters, trade show presentations and digital signage, this converter saves you the extra cost of adding a new HDMI display to your application.

Transmits 4K Video and Digital Audio

The P130-06N-DP-V2 supports Ultra HD 4K resolutions up to 4096 x 2160 at 30 Hz with 7.1-channel surround sound. HDCP 1.3 encryption allows you to stream 4K content with no loss in resolution. With an optional HDMI to DVI or mini-DVI adapter (such as Eaton's P130-000 or P138-00-HDMI, sold separately), you can also use this active converter to connect your DisplayPort monitor to a DVI or mini-DVI source.

Plug-and-Play Operation for Quick Setup and Immediate Use

The HDMI-to-DisplayPort converter works right out of the box with no software required. If extra power is needed, connect its built-in USB plug to your laptop's USB-A port. This cable is small enough to fit into your briefcase, backpack or laptop bag so you can take it with you wherever you go.

Specifications

OVERVIEW	
UPC Code	037332200419
Product Type	Video Adapter
Device Compatibility	Computer; Laptop; Monitor/HDTV; Projector
Technology	HDMI; DisplayPort
CONNECTIONS	
Side A - Connector 1	DISPLAYPORT (FEMALE); USB A (FEMALE)

Highlights

- Recommended for home theaters, digital signage, trade shows and classrooms
- Supports UHD resolutions up to 4K @ 30 Hz (4:4:4) for heightened video quality
- Delivers robust 7.1-channel surround sound to your display's speakers
