

# 404B Aerosol

## Contact Cleaner with Silicones for Electronics

The 404B Electronics Contact Cleaner with Silicone is a very fast drying contact cleaner. It is a plastic-safe solvent cleaner that leaves a thin film of dry electronic grade silicone behind. The solvent system effectively dissolves oil and organic residues.

The silicone provides lubrication, preventing wear and tear, as well as a layer of protection from oxidation and the elements. As well, the dry lubrication makes it better for dusty environments than mineral oil alternatives.

## Features & Benefits

Suitable for use in food facilities as a non-food chemical—Canadian and NFS recognition letters available on request

Non-conductive

Maximum service temperature of 200 °C (392 °F)

Safe on many plastic

Fast evaporation rate

Protects from oxidation

Reduces wear and abrasion

CARB and RoHS compliant

## Storage and Handling

Store between -20 and 27 °C in a dry area, away from sunlight. Store in well-ventilated places (see SDS).

## Properties

Color	Clear		
Odor	Mild hydrocarbon		
Solubility in Water	Insoluable		
Density @ 25 °C	0.7 g/mL		
Viscosity @ 25 °C	0.3 cP	Brookfield SP1	
Flash Point	-29 °C	Closed Cup	
Boiling Point	52 °C		
Vapor Pressure @ 25 °C	33 kPa		
Volatile Organic Compound (VOC)	75%		
Shelf Life	5 y
