

Free-Fall Snip Stainless Steel

The Klein Tools 2100-8 Free-Fall Electrician Snips are crafted from stainless steel and feature wire stripping notches for 19 and 23 AWG wire, making them ideal for telecom, datacom, electrical, and heavy-duty applications. Their free-fall design, paired with an extended bottom handle, ensures smooth, effortless cuts and provides enhanced leverage with each use. Made in the USA to ensure unmatched quality and durability.
