

# Bus Socket

SKU:A001

## Description

**Bus Socket** is an M5-Bus bus female and male header accessory kit. It includes 10 pieces of 2x15P@2.54mm female headers and male headers respectively. Its specifications are consistent with the M5-Bus of M5Stack Module series and Core series, and can be used for DIY module expansion, providing more functional expansion possibilities for M5Stack main control devices.

## Features

- 90° male headers
- 2 x 15 @ 2.54mm

## Includes

- 10 x male headers
- 10 x female headers
