CMYK multicolor printer with UV inkjet technology, with integrated "MARKING system app" identification software, 7" color touch display for printing plastic labels in UC, UCT, US, and UM format, as well as metal labels.

Product description

With the BLUEMARK ID COLOR UV inkjet marking system, you can process high print volumes and create high-quality markings. The intuitive operating software guides you through the entire printing process, automates maintenance, and helps prevent printing errors. The UV inkjet printing technology achieves pin-sharp typefaces in black and white and even in color.

Materials in card and sheet format as well as aluminum markers are printed quickly and easily by the versatile printers. The materials are instantly wipe- and scratch-proof, so they are ready for immediate use.

The automated stacking and unstacking function makes it possible to process up to 8000 markers per hour.

Your advantages

- High-value CMYK multicolor printing
- Intuitive and time-saving operation using integrated marking software and a graphical user interface
- Marking that is instantly wipe-resistant, so that marking materials are ready for immediate use
- Rapid marking of plastic and metal labels for marking terminals, conductors, cables, devices, and plants
- Scalable print resolution between standard (1200 dpi) and HD printing (2400 dpi)
- Environmentally-sound, emission-free high-speed printer with modern UV LED technology
- The printer detects the direction of the inserted sheets and automatically rotates printing 180° if required
