Siren element, 7 tones, 24 V DC, max. 100 dB(A), tone range over 3 signal lines, black

## Product description

This audible signal element is designed as a component of a modular signal tower. According to your requirements, a signal tower may comprise any combination of up to five signal elements. You may use up to five optical signal elements or up to four optical and one audible signal element. Only use an audible signal element as the top element. A bayonet locking system establishes the mechanical and electrical connection between the elements. Connection elements with spring-cage or screw connection can be used for electrical connection of the signal tower. Mounting elements for base or tube mounting can be used to mount the signal tower. Please note that PSD-S signal towers (70 mm diameter) are not mechanically compatible with PSD-S 50 signal towers (50 mm diameter).

## Your advantages

- Multi-tone siren signaling depending on the situation
- Remote control of tone selection via three signal cables
- Adjustable volume
- Degree of protection: IP65, when mounted

## Commercial data

## Technical data

### Notes

#### Note on application

|                     |                         |
|---------------------|-------------------------|
| Note on application | Only for industrial use |
|---------------------|-------------------------|

### Product properties

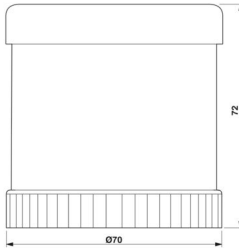

|                |                |
|----------------|----------------|
| Product type   | Signal element |
| Product family | PSD-S          |

### Electrical properties

#### General

|                             |                                       |
|-----------------------------|---------------------------------------|
| Input voltage               | 24 V DC $\pm 10\%$                    |
| Nominal input voltage range | 21.6 V DC ... 26.4 V DC               |
| Maximum inrush current      | max. 500 mA                           |
| Current consumption         | typ. 30 mA                            |
| Operating time              | 100 %                                 |
| Service life electrical     | min. 5,000 h                          |
| Type of acoustic signal     | Continuous tone                       |
|                             | Pulse tone                            |
| Signal frequency            | 1 Hz (Pulse tone)                     |
|                             | 20 Hz (Pulse tone)                    |
|                             | 420 Hz (Pulse tone)                   |
| Tone frequency              | 1.6 kHz                               |
|                             | 3.4 kHz                               |
| Number of tones             | 7 (Tone selection via 3 signal lines) |
| Volume                      | max. 100 dB                           |

### Dimensions

|                     |  |
|---------------------|--|
| Dimensional drawing |  |
| Height              | 72 mm  |
| Diameter            | 70 mm  |
