

**Important Note**

The B123-001-60 has been designed for use with P568-Series HDMI cables. To ensure maximum distance and performance, it is recommended that you use P568-Series HDMI cabling. For distances over 75 feet, 24 AWG cable such as [P568-100-HD](#) is required. Although most installations will not require power, a Micro-USB port is provided in the event power is needed. Using a Micro-USB cable (such as UR05C-Series), connect the Micro-USB port to a USB wall charger, the USB port on your monitor or the USB port on a computer.
