Slat Rail with Posts for Slat Wall System, 40 in. (102 cm), TAA

MODEL NUMBER: DMSWKITTAA

Elevates multiple monitors above your work surface to provide better viewing angles and keep desktop clean.

Features

Provides Multiple Mount Options for Your Flat-Screen TV or Monitor

This 40-inch (102-centimeter) slat rail with clamps and posts allows mounting of multiple displays simultaneously. It's ideal for workplaces, including office, hybrid and work-from-home environments. Your monitors are elevated above the desktop, which frees up precious workspace. You can also slide the monitors along grooves and then adjust the viewing angle for optimal ergonomics. Grooves on both sides of the slat rail accommodate independently adjustable monitor setups when desks are pushed together back-to-back.

Innovative Slat Wall System with 5 Components

The stylish aluminum DMSWKITTAA features side posts that clamp firmly to the edge of a flat desktop or table surface from 1.18 in. to 3.78 in. thick. In addition to the DMSWKITTAA, this slat wall system also has options for an additional slat rail for mounting more displays (DMSWSLATTAA) and three VESA-compliant monitor mounts (DMSW1332STAA, DMSW1332MTAA and DMSW1332LTAA), all sold separately.

TAA-Compliant for GSA Schedule Purchases

The DMSWKITTAA is compliant with the Federal Trade Agreements Act (TAA), which makes it eligible for GSA (General Services Administration) Schedule and other federal procurement contracts.

Highlights
