

## Slat Rail for Slat Wall System, 40 in. (102 cm), TAA

MODEL NUMBER: **DMSWSLATTAA**

Adds another slat rail to increase the capacity of your existing Slat Wall System.

### Features

#### Increases Capacity of Your Current Slat Rail

This 40-inch (102-centimeter) slat rail allows mounting of multiple displays simultaneously. It adds another slat rail to your existing Slat Rail with Posts (DMSWKITTA, sold separately), so you can install more monitors in your workspace. Monitors are elevated above the desktop, which frees up precious workspace. You can also slide the monitors along grooves and then adjust the viewing angle for optimal ergonomics. Grooves on both sides of the slat rail accommodate independently adjustable monitor setups when desks are pushed together back-to-back.

#### Innovative Slat Wall System with 5 Components

The stylish aluminum DMSWSLATTAA easily installs into the DMSWKITTA Slat Rail with Posts. In addition, this slat wall system also has options for three VESA-compliant monitor mounts (DMSW1332STAA, DMSW1332MTAA and DMSW1332LTAA), all sold separately.

#### TAA-Compliant for GSA Schedule Purchases

The DMSWSLATTAA is compliant with the Federal Trade Agreements Act (TAA), which makes it eligible for GSA (General Services Administration) Schedule and other federal procurement contracts.

## Specifications

OVERVIEW	
UPC Code	037332286505
Device Compatibility	Monitor/HDTV
PHYSICAL	
Color	Silver
Material of Construction	Aluminum
Motion	Fixed

### Highlights

- Adds a second slat rail to DMSWKITTA Slat Rail with Posts for additional displays
