

# Hospital-Grade Power Cord, NEMA 6-15P to C19 - Heavy-Duty, Green Dot, 15A, 250V, 14 AWG, 6 ft. (1.83 m), Gray

MODEL NUMBER: P033-006-GY-HG

Connects a server, transformer, or other high-current medical device with a C20 power inlet to a grounded 6-15R hospital-grade outlet.

## Features

**Hospital-Grade Power Cord is a Safe Solution for Medical Facilities** This hospital-grade cord features 14 AWG wire suitable for high power connections, making it a reliable solution for devices that require a higher-rated, heavier-gauge cable. The C19 end connects to a server, isolation transformer, power strip or other compatible hospital component. The NEMA 6-15P-HG green-dot plug connects to a hospital-grade AC power source located outside patient-care vicinities. The 6-ft. (1.83 m) length allows you flexibility in placing equipment with respect to the power outlet.

**Designed and Tested to Strict Hospital-Grade Standards** This hospital power cord is tested to ANSI/UL 62 and 817 standards, as well as CAN/CSA C22.2 no. 21 and 49 standards, ensuring it's a dependable power solution for hospital environments.

**Color-Coded to Avoid Misidentification That Can Cause Costly Downtime** This hospital-grade power cord features a gray SJT jacket and fully molded gray ends. The color-coding allows easy, fast identification in a crowded surge protector and helps prevent the cable from becoming inadvertently disconnected.

## Specifications

OVERVIEW	
UPC Code	037332224927
Device Compatibility	Mobile Cart; Computer; Printer; Monitor/HDTV; Server; UPS; PDU
Country/Region	Global
INPUT	
Maximum Input Amps	15

## Highlights

- Recommended for connecting devices to power outlets outside patient-care vicinities
- 6-ft. (1.83 m) length allows flexibility in placing devices in relationship to AC outlet
- Hospital-grade power cord replaces or upgrades power cord provided by manufacturer
- Thick 14 AWG wire gauge manages high power levels required for larger equipment
- Color-coded gray for fast, easy identification in a crowded PDU, UPS or surge protector

## Applications

- Connect devices like servers, transformers and power strips to an AC outlet up to 6-ft. (1.83 m) away in a hospital environment outside patient-care vicinities
- Extend an existing power connection up to 6-ft. (1.83 m) to more easily place a device or reach a power source
- Update or replace the standard power cord provided by a device's original manufacturer

## Package Includes

- P033-006-GY-HG Hospital-Grade Power Cord, NEMA 6-15P to C19, 6-ft. (1.83 m), Gray
