

## USB 3.0 SuperSpeed Extension Cable - USB M/F, Black, 3 ft. (0.91 m)

MODEL NUMBER: U324-003-BK

3 ft. extension cord connects two devices with USB-A connectors or extends your existing USB cable by 3 feet.

### Features

#### 3-ft. (0.91 m) Extension Cable Connects Computers, Printers, Modems and Other USB Equipment

This USB 3.0 SuperSpeed Type-A Extension Cable (M/F) attaches to your current USB 3.0 cable to extend it by three feet. It connects your computer, laptop or other compatible USB 3.0 device, such as a Chromebook or Surface tablet, to a USB-A keyboard, printer, portable hard drive, patch panel or other peripheral. The three-foot length helps reduce cable clutter and minimize the risk of tripping.

**Transfers Data at SuperSpeed Transfer Rates up to 5 Gbps** The U324-003-BK supports USB 3.0 speeds up to 5 Gbps—ten times the speed of USB 2.0—and better power efficiency with no device polling and lower active and idle power requirements. The cable's bi-directional data interface allows data to flow both directions simultaneously, increasing theoretical bandwidth by 10 times. The cable is backward compatible with previous USB generations, allowing you to use it with legacy devices.

### Highlights

- Recommended for connecting computers, hard drives and other USB-A devices
- Supports USB 3.0 SuperSpeed data transfer rates up to 5 Gbps—10x faster than USB 2.0
