

C-USBC3DP14MM10FBK

10ft USB-C to DisplayPort 1.4 Black Cable - 8K 60Hz

DESCRIPTION

This is a 10ft black USB-C to DisplayPort 1.4 male to male cable. This USB-C to DisplayPort 1.4 cable connects a USB-C laptop or tablet with DisplayPort Alt Mode to a DisplayPort monitor, supporting 7680x4320 (8K UHD) at 60Hz over the HBR3 link. It carries the video signal natively over USB-C and outputs standard DisplayPort with Display Stream Compression and HDR support, so a single cable drives a high-resolution display without a separate dock. This makes it ideal for connecting a modern USB-C laptop or workstation to an 8K or high-refresh DisplayPort monitor. The reversible USB-C connector plugs in either orientation for everyday convenience. A flexible PVC jacket keeps the run tidy at the desk while preserving clean signal integrity at the highest resolutions.

FEATURES

- Connects a USB-C source to a DisplayPort display with a single male-to-male cable
- Supports Ultra HD 8K resolution at 60Hz (7680x4320)
- Requires a USB-C device that supports DisplayPort Alt Mode
- Built on the DisplayPort 1.4 (HBR3) interface with HDR and DSC support
- Reversible USB-C connector plugs in correctly every time
- Thunderbolt 3 and Thunderbolt 4 compatible

APPLICATIONS

- Connect a USB-C laptop or tablet to an 8K DisplayPort monitor
- Drive 4K displays at high refresh rates from a USB-C device
- Connect a USB-C MacBook or Ultrabook to an HDR reference display
- Replace multiple dongles with a single USB-C to DisplayPort cable

Audio Video Cable/Adapter Specifications

Connector Side 1	USB-C - Male
Connector Side 2	DisplayPort - Male
Cable Length	10 ft
Cable Color	Black
Maximum Resolution	8K 60Hz (7680x4320)
Protocol	DP 1.4 (HBR3)
Housing/Shell Material	ABS
Jacket Material	PVC
Country Of Origin	Varies
