

C-HD13DVSMM10FBK

10ft HDMI1.3 to DVI-D Single Link (18+1) Black Cable

DESCRIPTION

This is a 10ft black HDMI 1.3 to DVI-D Single Link (18+1) male to male cable. This HDMI 1.3 to DVI-D Single Link (18+1) cable bridges an HDMI source to a DVI-D display, supporting resolutions up to 1920x1200 (WUXGA). DVI-D Single Link carries the digital video portion of the HDMI signal, making it the right adapter cable when a source uses HDMI but the monitor, KVM, or projector has a DVI-D input. It is common in office, education, and industrial AV environments where existing DVI-D displays are still in active service. The single-link wiring supports standard desktop resolutions up to WUXGA for clear, stable digital video. A flexible PVC jacket keeps the run tidy on a desk, podium, or rack while delivering a clean, dependable signal between the two digital standards.

FEATURES

- Connects an HDMI source to a DVI-D Single Link display with a single male-to-male cable
- Supports resolutions up to 1920x1200 (WUXGA)
- Built to the High Speed HDMI 1.3/1.4 standard
- Passive design draws no external power for plug-and-play operation
- Digital video connection for sharp, interference-free picture quality

APPLICATIONS

- Connect an HDMI laptop or desktop to a single-link DVI monitor
- Drive a 1920x1200 DVI display from an HDMI graphics output
- Keep using a DVI monitor with an HDMI-equipped computer

Audio Video Cable/Adapter Specifications

Connector Side 1	HDMI - Male
Connector Side 2	DVI-D Single Link (18+1 pin) - Male
Cable Length	10 ft
Cable Color	Black
Maximum Resolution	1920x1200 (WUXGA)
Protocol	High Speed HDMI 1.3/1.4 (10.2Gbps)
Housing/Shell Material	ABS
Jacket Material	PVC
Country Of Origin	Varies
