10ft HDMI1.4 to Mini HDMI 1.4 Black Cable - 4K 30Hz

DESCRIPTION

This is a 10ft black HDMI 1.4 to Mini HDMI 1.4 male to male cable. This HDMI 1.4 to Mini HDMI 1.4 cable connects a full-size HDMI source or display to a Mini HDMI device, supporting 4K UHD (3840x2160) at 30Hz over the High Speed HDMI specification at up to 10.2 Gbps. Mini HDMI is common on compact laptops, cameras, and tablets, while the full-size HDMI end mates with standard TVs, monitors, and AV gear. This makes it the right cable for getting audio and video from a compact device onto a larger display or capture setup. The single-cable design carries audio and video together for clean, simple connection. A flexible PVC jacket keeps the run tidy at the source while delivering a dependable Full HD and 4K signal.

FEATURES

- Connects a full-size HDMI device to a Mini HDMI device with a male-to-male cable
- Supports resolutions up to 4K at 30Hz (3840x2160) and Full HD 1080p
- Built to the High Speed HDMI 1.4 standard with up to 10.2 Gbps of bandwidth
- Carries digital audio and video over a single cable
- Backward compatible with earlier HDMI displays

APPLICATIONS

- Connect a Mini HDMI camera or tablet to an HDMI display
- Output Full HD or 4K video from a compact device to a TV or monitor
- Connect a DSLR or camcorder to a large-format HDMI display
