

HDMI CABLE

C-HD14MM20FBK

20ft HDMI1.4 Black Cable - 4K 30Hz

DESCRIPTION

This is a 20ft black HDMI 1.4 male to male cable. HDMI 1.4 is the universal audio/video standard for displays, projectors, AV receivers, and streaming devices, carrying high-definition video and audio over a single connection. Built to the High Speed HDMI specification with up to 10.2 Gbps of bandwidth, it supports Full HD and 4K UHD (3840x2160) at 30Hz along with standard HDMI features. It is ideal for everyday connections from a laptop, mini-PC, set-top box, or gaming console to a TV, monitor, or conference-room projector. The single-cable design keeps audio and video together for simple, clutter-free installation, and the cable is backward compatible with earlier HDMI displays. A flexible PVC jacket makes it easy to route behind a desk, on a podium, or through a rack while delivering a clean, dependable signal.

FEATURES

- Connects two HDMI devices with a single male-to-male cable
- Supports resolutions up to 4K at 30Hz (3840x2160) and Full HD 1080p
- Built to the High Speed HDMI 1.4 standard with up to 10.2 Gbps of bandwidth
- Supports HDMI Ethernet Channel and Audio Return Channel (ARC)
- Carries multichannel digital audio and video over a single cable
- Backward compatible with earlier HDMI displays

APPLICATIONS

- Connect a source to a TV, monitor, or projector for Full HD or 4K video
- Connect a Blu-ray player, console, or streaming box to a display
- Connect a laptop or desktop to an HDMI monitor or projector
- Add an HDMI A/V connection at a home or office workstation
