10ft Mini HDMI1.3 to DVI-D Single Link (18+1) Black Cable

DESCRIPTION

This is a 10ft black Mini HDMI 1.3 to DVI-D Single Link (18+1) male to male cable. This Mini HDMI 1.3 to DVI-D Single Link (18+1) cable connects a Mini HDMI source to a DVI-D display, supporting resolutions up to 1920x1200 (WUXGA). Mini HDMI is common on compact laptops, cameras, and tablets, while DVI-D Single Link drives the digital input on monitors, KVMs, and projectors. This makes it the right cable for sending video from a Mini HDMI device to an existing DVI-D display in office, education, or industrial AV environments. The single-link wiring supports standard desktop resolutions up to WUXGA for clear, stable digital video. A flexible PVC jacket keeps the run tidy at the source while delivering a clean, dependable signal between the two standards.

FEATURES

- Connects a Mini HDMI source to a DVI-D Single Link display with a single male-to-male cable
- Supports resolutions up to 1920x1200 (WUXGA)
- Built to the High Speed HDMI 1.3/1.4 standard
- Passive design draws no external power for plug-and-play operation
- Digital video connection for sharp, interference-free picture quality

APPLICATIONS

- Connect a Mini HDMI camera or tablet to a single-link DVI monitor
- Drive a 1920x1200 DVI display from a Mini HDMI device
- Preview footage from a Mini HDMI camcorder on a DVI monitor

Audio Video Cable/Adapter Specifications

Connector Side 1	Mini HDMI - Male
Connector Side 2	DVI-D Single Link (18+1 pin) - Male
Cable Length	10 ft
Cable Color	Black
Maximum Resolution	1920x1200 (WUXGA)
Protocol	High Speed HDMI 1.3/1.4 (10.2Gbps)
Housing/Shell Material	ABS
Jacket Material	PVC
Country Of Origin	Varies
