

C-USBC3HD20MM10FBK

10ft USB-C to HDMI 2.0 Black Cable - 4K 60Hz

DESCRIPTION

This is a 10ft black USB-C to HDMI 2.0 male to male cable. This USB-C to HDMI 2.0 cable connects a USB-C laptop or tablet with DisplayPort Alt Mode to an HDMI display, supporting 4K UHD (3840x2160) at 60Hz with up to 18 Gbps of HDMI bandwidth. It carries the video signal over USB-C and outputs standard HDMI, so a single cable drives a TV, monitor, or projector without a separate dock or converter box. This makes it ideal for connecting a modern USB-C laptop or workstation to a 4K HDMI display in an office, classroom, or conference room. The reversible USB-C connector plugs in either orientation for everyday convenience. A flexible PVC jacket keeps the run tidy at the desk while delivering reliable 4K 60Hz signal integrity.

FEATURES

- Connects a USB-C source to an HDMI display with a single male-to-male cable
- Supports Ultra HD 4K resolution at 60Hz (3840x2160)
- Requires a USB-C device that supports DisplayPort Alt Mode
- Reversible USB-C connector plugs in correctly every time
- Thunderbolt 3 and Thunderbolt 4 compatible
- Backward compatible with 1080p HDMI displays

APPLICATIONS

- Connect a USB-C laptop or phone to a 4K 60Hz HDMI display
- Output high-frame-rate 4K video from a USB-C device to a TV or monitor
- Present to a large-format boardroom display from a USB-C MacBook
- Replace multiple dongles with a single USB-C to HDMI cable

Audio Video Cable/Adapter Specifications

Connector Side 1	USB-C - Male
Connector Side 2	HDMI - Male
Cable Length	10 ft
Cable Color	Black
Maximum Resolution	4K 60Hz (3840x2160)
Protocol	DP 1.4 (HBR3) to HDMI 2.0 (18Gbps)
Housing/Shell Material	ABS
Jacket Material	PVC
Country Of Origin	Varies
