

C-USBC3HD21MM10FBK

10ft USB-C to HDMI 2.1 Black Cable - 8K 60Hz

DESCRIPTION

This is a 10ft black USB-C to HDMI 2.1 male to male cable. This USB-C to HDMI 2.1 cable connects a USB-C laptop or tablet with DisplayPort Alt Mode to a high-bandwidth HDMI display, supporting 8K UHD (7680x4320) at 60Hz with up to 48 Gbps of HDMI bandwidth. It carries the video signal over USB-C and outputs standard HDMI, so a single cable drives an 8K display or high-refresh monitor without a separate dock or converter box. This makes it ideal for connecting a modern USB-C laptop or workstation to an 8K or high-refresh HDMI display. The reversible USB-C connector plugs in either orientation for everyday convenience. A flexible PVC jacket keeps the run tidy at the desk while delivering dependable high-bandwidth signal integrity.

FEATURES

- Connects a USB-C source to an HDMI display with a single male-to-male cable
- Supports Ultra HD 8K resolution at 60Hz (7680x4320)
- Requires a USB-C device that supports DisplayPort Alt Mode
- Supports HDR for greater contrast and color depth
- Reversible USB-C connector plugs in correctly every time
- Thunderbolt 3 and Thunderbolt 4 compatible

APPLICATIONS

- Connect a USB-C laptop to an 8K HDMI display or TV
- Drive a 4K HDMI gaming monitor at high refresh rates from a USB-C device
- Run a USB-C workstation to a large-format display for video editing
- Replace multiple dongles with a single USB-C to HDMI cable

Audio Video Cable/Adapter Specifications

Connector Side 1	USB-C - Male
Connector Side 2	HDMI - Male
Cable Length	10 ft
Cable Color	Black
Maximum Resolution	8K 60Hz (7680x4320)
Protocol	DP 1.4 (HBR3) to HDMI 2.1 (48Gbps)
Housing/Shell Material	ABS
Jacket Material	PVC
Country Of Origin	Varies
