CORE ATTRIBUTES

SKU	**333434**
DIMENSIONS	**50.0 × 40.0 × 10.0 mm**
ORIGIN	**HR**
BARCODE	**732388627806**

DESCRIPTION

This lithium-polymer battery is small, light and durable. Through standard JST 2mm female connector, it will yield 3.7V which will supply your projects for a whole day (and night!). Furthermore, the battery has an implemented protection system, which prevents high voltages (prevents over-charging), undervoltage and short circuit. That way it protects the battery, increases its lifetime and protects you from possible accidents!

DISCLAIMER: This battery has to be charged with a special charger that uses **CC/CV** principle. Li-Po batteries are dangerous! Read our tutorial (link under Resources & Documentation) before use.

TECHNICAL DETAILS

- **Nominal voltage:** 3.7V
- **Capacity:** 2500mAh, 9.25Wh
- **Standard JST-PH-2mm connector**
- **Dimensions:** 10 × 40 × 50 mm / 0.39 × 1.57 × 1.97 inch
