

Circuit breaker size S0 for starter combination Rated current 20 A N-release 260 A screw terminal Standard switching capacity

|   |                          |
|---|--------------------------|
| product brand name  | SIRIUS                   |
| product designation   | Circuit breaker          |
| design of the product   | For starter combinations |
| product type designation  | 3RV2                     |
| <b>General technical data</b>                                   |                          |
| size of the circuit-breaker                                     | S0                       |
| size of contactor can be combined company-specific              | S00, S0                  |
| product extension auxiliary switch                              | Yes                      |
| power loss [W] for rated value of the current                   |                          |
| • at AC in hot operating state                                  | 10.5 W                   |
| • at AC in hot operating state per pole                         | 3.5 W                    |
| insulation voltage with degree of pollution 3 at AC rated value | 690 V                    |
| surge voltage resistance rated value                            | 6 kV                     |
| shock resistance according to IEC 60068-2-27                    | 25g / 11 ms              |
| mechanical service life (operating cycles)                      |                          |
| • of the main contacts typical                                  | 100 000                  |
| • of auxiliary contacts typical                                 | 100 000                  |
| electrical endurance (operating cycles) typical                 | 100 000                  |
| reference code according to IEC 81346-2                         | Q                        |
| Substance Prohibitance (Date)                                   | 10/01/2009               |
| Net Weight  | 357 g                    |
| <b>Ambient conditions</b>                                       |                          |
| installation altitude at height above sea level maximum         | 2 000 m                  |
| ambient temperature   |                          |
| • during operation  | -20 ... +60 °C           |
| • during storage  | -50 ... +80 °C           |
| • during transport  | -50 ... +80 °C           |
| relative humidity during operation                              | 10 ... 95 %              |
| <b>Main circuit</b>   |                          |
