

product type designation

Antenna ANT793-8DK

ANT793-8DK IWLAN antenna vertically-horizontally polarized with strong directional effect incl. 2x N-female socket; 23 dBi; IP67 (-45-+70 °C), 5 GHz; Wi-Fi compliance and Observe national approvals; Mounting on wall or mast; compact instructions as hard copy German/English; scope of delivery: 1x ANT793-8DK, 1x mounting aid for alignment .

product brand name

SCALANCE

Technical Product Detail Page

<https://l.siemens.com/1P6GK5793-8DK00-0AA0>

radio frequencies

type of wireless network / is supported

WLAN

operating frequency

- for WLAN in 5 GHz frequency band 1

5.15 ... 5.875 GHz

electrical data

antenna gain compared to spherical radiator

- of the WLAN antenna / in the 5 GHz frequency band

23 dBi

impedance

50 Ω

polarization

Dual linear vertical-horizontal

radiation characteristic

directional

standing wave ratio (VSWR) / maximum

1.7

radiating angle of the antenna

- in the 5 GHz frequency band / horizontal
- in the 5 GHz frequency band / vertical

9°

9°

number of electrical connections / of the antenna

2

type of electrical connection / of the antenna

N-Connector

design of plug-in connection

female

angle of inclination / downward / maximum

0°

crosstalk attenuation / between the antenna connections

40 dB

front-to-back ratio

35 dB

mechanical data

material

- of outer shell

Polycarbonate

ambient conditions

ambient temperature

- during operation
- during storage
- during transport

-45 ... +70 °C

-45 ... +70 °C

-45 ... +70 °C

protection class IP

IP67

wind load / maximum

389 N; frontal at 220 km/h

design, dimensions and weights

width

371 mm

height

371 mm

depth

40 mm

net weight

2500 g

fastening method

• mast mounting • wall mounting • roof mounting • directly on the device	Yes Yes No No
standards, specifications, approvals	
certificate of suitability	
• RoHS conformity	Yes
wireless approval	Current national approvals can be found on the Internet under www.siemens.com/funkzulassungen

security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
