

product type designation

SFP993-1 (CC)

SCALANCE X accessory; Plug-in transceiver SFP993-1; with conformal coating; 1x 10000 Mbps LC port, optical; multimode glass up to max. 550 m (with OM4 fiber)

product brand name

SCALANCE

Technical Product Detail Page

interfaces

number of electrical/optical connections / for network components or terminal equipment / maximum	1
number of optical interfaces / for network components or terminal equipment / maximum	1
number of 10 Gbit/s LC ports (SX)	1
design of the optical interface / for network components or terminal equipment	LC
wavelength / of the optical interface	850 nm; Multi-mode
connectable optical power relative to 1 mW	
• of the transmitter output / minimum	-5 dB
• of the transmitter output / maximum	-1 dB
• of the receiver input / maximum	-1 dB
optical sensitivity relating to 1 mW / of the receiver input / minimum	-11 dB
attenuation factor / of the FOC transmission link / minimum necessary	0 dB
range / at the optical interface / depending on the optical fiber used	0.3 ... 0.55 km
transmission method / for connection type 1	10GBASE-SR

ambient conditions

ambient temperature	
• during operation	0 ... 60 °C
• during storage	-40 ... +85 °C
• during transport	-40 ... +85 °C
relative humidity / at 25 °C / without condensation / during operation / maximum	95 %
protection class IP	IP20

design, dimensions and weights

design	SFP Module
width	14 mm
height	9 mm
depth	57 mm
net weight	0.02 kg
product feature / conformal coating	Yes
fastening method	latched

standards, specifications, approvals

standard

• for safety / from CSA and UL • for emitted interference • for interference immunity	UL 62368-1 and CAN/CSA C22.2 No. 62368-1:19 EN 61000-6-4 (Class A) EN 61000-6-2
certificate of suitability • CE marking • C-Tick • KC approval • CCC / for hazardous zone according to GB standard • CCC / for hazardous zone according to GB standard / as marking • E1 approval	EN 61000-6-2:2005, EN 61000-6-4:2007 Yes Yes No Yes; GB3836.1, GB3836.8 Ex nA IIC T4 Gc No
Marine classification association • French marine classification society (BV)	Yes
MTBF	1100 a
product function / is supported / identification link	Yes; acc. to IEC 61406-1:2022

security information

security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
