## FOR IMMEDIATE RELEASE

### Multi-Use, Snap-On Contact Straps

*New Hyde Park, NY...* High performance, Insulated, Pre-Wired Snap-On contact straps for simplified connectivity applications are now available from Keystone Electronics Corp.

Keystone's new male and female Snap-On contact straps (9volt style) can be used as traditional male and female connections for 9volt battery design applications. In addition to 9volt battery use, these contact straps can be used for snap on / snap off connectivity applications in equipment, devices and automotive environments.

These "no tools required" connectors allow for easy and secure connectivity of devices. Supplied with an insulated vinyl covered base to reduce short circuit and contact tampering potential, both the male snap, **Cat. # 268** or the female snap, **Cat. # 260** feature Brass, Nickel-Plated contacts for a reliable, low contact resistance battery connection. Rated for up to 2 amp, 120 VAC environments, connectors are each supplied with a 6" long #26 AWG long tinned and snipped wire lead for simplified installation.

For complete details and specifications contact Keystone's global distribution network and online

A major producer of SMT and THM battery hardware, Keystone supplies battery and coin cell holders, clips, straps and retainers in a broad range of sizes and types along with an extensive array of electronic interconnects and hardware. In addition, application engineering services are provided to meet special product modifications or custom designs with active Stamping, Machining, Assembly, CNC and Molding support.

Keystone is ISO-9001:2015 certified and RoHS, REACH compliant with USA headquarters and offices in Canada, Europe, Australia and Asia. For further details and to request literature contact (800) 221-5510 or (516) 328-7500; fax (516) 328-1080; Email: [kec@keyelco.com](mailto:kec@keyelco.com) or view [www.keyelco.com](http://www.keyelco.com).
