**FOR IMMEDIATE RELEASE**

**New, UL Recognized Female, Quick-Fit PCB Terminals on  
Continuous Reel**

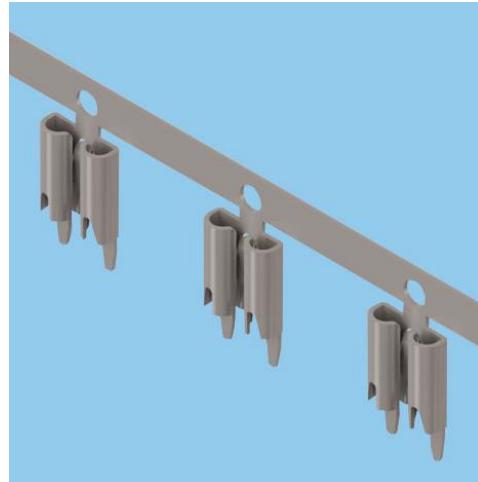

New Hyde Park, NY... Keystone Electronics has introduced a new packaging for their diverse selection of Female Quick-Fit, PCB receptacles. These Female Terminals are specifically designed on a continuous reel (strip) to be used with standard automated insertion equipment – reducing assembly and processing time.

Manufactured from Brass with Tin Plating, these Female Terminals are UL Recognized and ensure easy installation and soldering to a PCB. Packaged on reels, these terminals are easy “drop in” replacements for existing bulk or reeled product.

Request **Cat. No: 3573-R** for use with .205" wide Male Tabs as well as ATO, ATC or APR style Auto Blade Fuses.

The terminals are available from stock through Keystone's global distribution network and/or “On-Line” ordering partners

Keystone is a leading manufacturer of THM and SMT terminals and test points as well as battery and fuse hardware along with an extensive array of electronic interconnects and hardware. Application engineering services are also available to meet special product modifications or custom designs with active stamping, machining and assembly support.

Keystone is ISO-9001:2015 certified and RoHS, REACH compliant with USA headquarters and offices in Canada, Europe, Australia and Asia.
