

Portable NACS EV Chargers

Adam Tech's line of North American Charging Standard (NACS) EV products is further enhanced with Portable NACS EV Chargers. These portable chargers offer the benefits of NACS, with the added convenience of mobility. In addition, they provide the ability to adjust amperage, allowing users to choose the charging rate that best suits their needs and available power outlets. Adam Tech's line of NACS products supports NEMA 5-15P, 6-20P, and 14-50P, as well as CEE32, with custom options available.

Features and Benefits:

- Charges Tesla vehicles and other cross-manufacturers standardized for NACS
- Portable design
- Meets SAE J3400 standards for highest compatibility
- UL recognized
- Produced in our IATF 16949 facility to ensure the highest quality, safety, and construction
- IP67 waterproof when plugged in
- 20ft cable length
- Thermistor temperature sensor technology for additional heat protection (power supply will suspend if temperature surpasses $95 \pm 5^{\circ}\text{C}$, not resuming until the temperature drops below $65 \pm 5^{\circ}\text{C}$)
- Highly durable glass reinforced thermoplastic insulator, UL 94V-0 rated
- Ergonomic handle for ease of use
- AC charging with current rating options ranging from 8A to 40A
- Voltage rating: 240 VAC
