

NEMA 4X Enclosures

Outdoor/Industrial Enclosures for APM & Vista Touch Meters

Designed for the Trumeter APM and Vista Touch panel meter ranges, these robust enclosure enable installation where panel mounting isn't practical or additional protection is required. Manufactured from UV-resistant polycarbonate with a hinged cover, stainless steel latches and a neoprene gasket, they provide IP66 and NEMA 4X protection, making them ideal for demanding indoor and outdoor industrial, utility and process control applications.

EHL-68x68

NEMA 4X Enclosure for APM range

EHL-92x92

NEMA 4X Enclosure for Vista Touch range

Panel meters sold separately

FEATURES

- Extends installation options beyond traditional panel mounting
