INTRODUCING

ALCOSWITCH PBES16 SERIES PUSHBUTTON EMERGENCY STOP SWITCH

- **Solder to wire or quick connect disconnect terminals**

- **Simple easy mounting**

TE Connectivity (TE)'s ALCOSWITCH PBES16 Series Pushbutton Emergency Stop Switch is offered as an illuminated and non-illuminated switch. This series has multiple lighting options, agency approvals, and meets IEC 60947-5-1 and IEC 60947-5-5 standards. These switches are offered with two different actuator button styles. The PBES16 Series has a 20N actuation force for ruggedized applications to avoid accidental actuations and is also IP65 rated to withstand harsh environments.

KEY BENEFITS

- Solder to wire or quick connect disconnect terminals
- Simple easy mounting
- IP65 rated
- IEC 60947-5-1 & IEC 60947-5-5
- 16 mm mounting hole
- Gold plating
- Illuminated and non-illuminated
- UL and TUV agency approval
- LED and incandescent
- High actuation force

APPLICATIONS

- Robotics
- Escalators
- Process machinery
- Medical equipment
- Factory automation
