Products

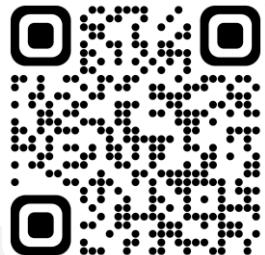

Since 1993, Amphenol LTW Technology “ALTW” lives and breathes to create, innovate, design and produce “**unrivaled interconnects for harsh environments**”. With over 300 worldwide patents, not only does ALTW offer the broadest and widest range of rugged interconnects in the industry but also customization with the mission of “Customer Satisfaction First”. Undoubtedly, ALTW is the leader in rugged interconnects, highly recognized for its uncompromising quality, short lead time, fast and tailored service and its very competitive pricing.

Regardless of the challenging environments that your products will be subject to; there is a very good chance that you will find what you are looking for with ALTW.

M Series Sensor Connector

M series is designed typically for industrial process measurement and control according to IEC standard, offering secure and reliable data as well as superior power transmission performance. Besides the industrial applications, M series is also an ideal solution for a compact design where the environmental protection and stable connection are required.

Amphenol LTW provides a comprehensive product range of M series, including M5 / M8 / Guided M8 / M10.5 / M12 / 7/8" / M20 and M23. We also have push pull version, MPronto-12, the MPronto-12 M12 push pull connectors with the unique push-pull fast-locking system guarantee secure, tool-free plugging, even in confined spaces and with a high cabling density. The Mpronto-12 M12 push pull connectors are the World's First truly backward compatible to all female M12*1.0 sockets made by different manufacturers.

Heavy Duty M12 “HDM12”

Rugged HDM12 for ultra-reliable, high-temperature applications

- Temperature range: -40°C ~ +125°C
- Waterproof rating: IP68
- Durability: 1000 cycles
- Salt Spray: 204h
- Vibration resistance: 20G as per SAE J2839
- Vibration and mechanical shock: SAE J2839
- UL1977
- IEC 61076-2-101

Amphenol LTW presents the robust M12 high-temperature connector, the HDM12. Engineered for commercial applications with elevated vibration and challenging environmental conditions, the HDM12 excels in heavy-duty and harsh surroundings.

Compliant with IEC 61076-2-101 and SAE J2839 standards, the HDM12 connectors emerge as the ideal solution for ultra-rugged applications prevalent in markets such as Heavy Equipment, Heavy-Duty Automotive, Railway Mass Transit, Factory Automation, and more. Elevate your connectivity reliability in extreme conditions with the durability and performance offered by our HDM12 connectors.

Field Installable 5 Pin

Gender	Part Number	Termination Style	Backshell
Female	HDM12A-05BFFB-SL7001		
Male	HDM12A-05BMMB-SL7001	Screw-in	Straight

Receptacle 5 Pin

Gender	Part Number	Thread	Assembly Style
Female	HDM12A-05PFFP-SF8001	PG9	PCB 180°
	HDM12A-05PFFP-SF8002	M16	
Male	HDM12A-05PMMP-SF8001	PG9	PCB 180°
	HDM12A-05PMMP-SF8002	M16	

MPRONTO-12 M12 PUSH PULL CONNECTORS

Spring Lock Designed For Backward Compatible With M12 * 1.0 Thread According To IEC Standard

World's First truly backward compatible to all female M12*1.0 sockets made by different manufacturers.

FEATURES

- Unique technology patent
- One simple Push-to-Plug and Pull-to-Unplug
- Saves over 80% installation time vs. standard M12 screw thread mating
- Parts and components available for sale

SPECIFICATIONS

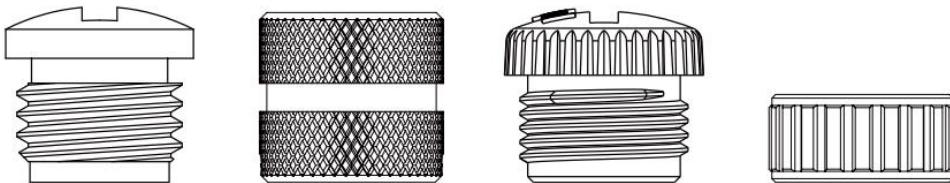

- Supports A, B, D, S, T, X coding
- Contacts: up to 17 pins
- Salt Spray: 48h
- Durability: 500 cycles
- Meets IP67, IP68 and IP69K ingress protection
- Mate with all M12*1.0 per IEC standard (in compliant to IEC 61076-2-101)

Accessory
