

BATTERY DISCONNECTOR

300 A

Series
35

Mechanical operated battery disconnecter current to 300 Amp for highest requirements used in all vehicles.

Single pole configuration

Seal IP67 and IP6K9K functionable in a ambient temperature -40°C to $+85^{\circ}\text{C}$. Overload current 2000 Amp for 10 sec.

Battery disconnectors from KISSLING are able to be operated under full load, to ensure in emergency conditions a safe disconnection from the battery.

Dimensions

1 pole with longflange

Circuit

1 pole with central mounting

Circuit

Accessories

Keyholder not for switches with central mounting

Keys

Key overview

0	Standard
1	Standard long
2	45° turn off
3	T-handle
4	Double wing
5	Pointer key

Key with chain

6	Standard
7	Standard long
8	45° turn off
9	T-handle

Key Accessory:
Chain, length 50 mm

Ordering Key

Technical Data

Environmentally Characteristics

Temperature Range	–40°F to +185°F
Protection	I P67 / IEC 529
Vibration	4 G (50-2000 HZ)
Shock	6 G, 11 msec
Weight	0.8 pound

Max. torque

Thread sizes	M10 = 15–20 Nm M12 = 18–22 Nm
--------------	---------------------------------

Electrical Characteristics

Min. Insulation Resistance	100 MΩ
Dielectric withstanding voltage	1050 V / 1 min at 50 Hz
Max. Contact drop at max. Load	150 mV
Voltage Range	up to 32 V
Duty rating, continuous	300 A
Overload	1200 A - 4 min
	1600 A - 1.5 min
	2000 A - 10 sec

Wire section	min. 240 mm ²
Mounting position	Optional
