

To all our valued customers, partners, and suppliers,

As the situation surrounding COVID-19 escalates, we send our best wishes for health and wellness to you all. Our hearts are with everyone impacted by this worldwide crisis.

As an essential business, we believe consistent communication is important during this time of uncertainty. Amulet **will continue to operate**, along with other critical businesses, to supply necessary products amidst COVID-19.

Many of our components are used in medical and HVAC industries, which are considered to be a part of the critical sector in the fight against coronavirus. Therefore, we will **continue production** during this pandemic. We have adapted our business in response to coronavirus, and are taking the necessary steps and precautions to operate safely as possible.

Our essential operations team will continue to accept and ship orders without interruption. Other departments, including sales, engineering, customer service, and accounting are working remotely from home. As the situation surrounding COVID-19 evolves, we will act and communicate accordingly.

Please feel free to reach out to us through our regular channels for any questions or concerns. We are truly grateful for your support and partnership during this time as we all face this unprecedented challenge together.

Be well,

The Amulet Team
