Subject: Novel Coronavirus (COVID-19)
Notice of Force Majeure Event

Dear Valued Customer:

As you are aware, the novel coronavirus (COVID-19) outbreak has been declared a global health pandemic by the World Health Organization. This emergency, with geographic quarantines, plant closures, significant travel restrictions, and mandatory social distancing measures has adversely impacted supply chains throughout the world. For our Nogales facility, the state government of Sonora has issued a shelter in place directive effective today and extending at least through April 19, 2020.

Please be advised that CTS Corporation and its subsidiaries ("CTS") has been adversely impacted by these events. Consequently, final shipments of CTS/Tusonix EMI and Thermal products were made today. CTS/Tusonix will continue to accept new purchase orders, however, there will be no further manufacturing at the Nogales facility until operations resume in accordance with government restrictions. To the extent practicable, CTS will provide customer support during this shutdown period. CTS' inability to meet delivery commitments due to this significant public health crisis is an unforeseeable event beyond our control constituting a Force Majeure event.

CTS is monitoring the COVID-19 situation closely and will promptly communicate any updates via our sales team. Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'Fred Baum'. The signature is fluid and cursive, with a long horizontal stroke at the end.
