## **Covid-19 Update**

We would like to update you on Coto Technology's current situation and continued response to the Covid-19 Virus. Thus far, our employees have been largely unaffected by the virus, although we remain cautious and vigilant in our adherence to strict guidelines regarding hygiene practices and social distancing. Additionally, we are not accepting outside visitors into our facilities.

At this time, we are not experiencing supply chain issues or production slow-down. We acknowledge that this is an extremely dynamic situation – and while we are confident in our own strategic planning and supply partners, the Covid-19 event is unprecedented and unpredictable.

If conditions change, we will provide you with updates. (Please check our website: <https://www.cotorelay.com> for timely information). Thank you for your continued business.

Best Regards,

Bernd Helbig  
VP, Global Sales
