Dear valued customer,

the events of the last few weeks have been unprecedented. Our generation has never seen a global plague or conflict. Up until now. Covid-19 is now a pandemic affecting Italy and the whole globe. The world at large is working to limit the spread of the virus and heal the sick. We'd like to take a moment to address all of you on what we're doing as UDOO to ensure the health and wellbeing of our employees.

Since March, the whole UDOO team has been smart working, safe in their homes, even before local authorities turned warnings to caution into laws.

But the UDOO team extends over our office, and there are still people at the factory, working to make sure that all of you received your boards. We've been continually assessing the risk of exposure, guided by the recommendations from local health authorities. Our company has been working closely with health authorities to provide all the help we can give. That's why, the production and all shipments of UDOO products will be suspended until further government dispositions. Please visit our pages to learn more: <https://www.udoo.org/udoo-covid-19-update/> / https://www.seco.com/eu/news/FAQ_SECO_COVID19.

Customer service and other services will still be operating, but as of now, we're unable to send more UDOO. The work we're doing now it's crucial for everybody.

We will continue to update you on new developments.

Thank you for your attention and stay safe.

The UDOO Team
