

# Panasonic Coin Cell Suffixes

*The catalog part number is a short hand version of our part numbers (i.e. CR2032). The shipping part number is the formal part number which appears on our the shipping carton and documents (i.e. CR-2032L/BN). The shipping part number includes a suffix at the end to designate different specifics...*

**N:** All shipping part numbers sold outside Japan will have a “N” at the end. Product sold within Japan end with a “K”.

**B:** Bare Cells (those without solder tabs) will have a B in the part number – CR-2032L/BN

**Solder Tabs:** There are various suffixes that designate different tab configurations (VCN, HBN, G1AN, etc..).  
The basic tab configurations are attached.

PLEASE NOTE THAT THERE IS NO CONSISTENT TAB DESIGNATION ACROSS PART NUMBERS. FOR EXAMPLE, THE VCN CONFIGURATION OF THE CR-2032/VCN IS NOT THE SAME AS THE BR-2032/VCN. THE DRAWING MUST BE CHECKED.

**Packaging:** Other letters may be added to differentiate various packaging options and other features.

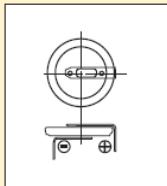

Z: Upside Down Orientation, D: Non-nickel Plated Cell, etc...
