

# Flexible LED Filament Chips

## Product Overview

11/30/2022

For the most up-to-date information, visit [www.mouser.com](http://www.mouser.com) or the supplier's website.

## Description

DFRobot Flexible LED Filament Chips can be bent and folded at will and emits light in 360 degrees. These LED filament chips come with a diameter of 2mm and a length of 260mm. The small round hole end is the positive electrode, and the non-porous end is the negative electrode. Applications include DIY lighting decoration, DIY bulb ball, and 360° full-angle light-emitting lamps.

## Features

- High brightness
- Suitable for DIY
- Small size
