

Automotive Infotainment Module Connector

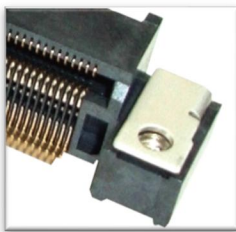

Product Features:

- **Automotive Grade** performance
- Strong performance against shock & vibrations
- Compatible mechanical interface with **MXM2.1** and **Qseven** modules
- Ideal for Automotive Infotainment systems and other embedded system COM designs

**CN113 Series
Infotainment Module Connector**

<i>Product PN</i>	<i>Product Description</i>
CN113-230-0001(01)VE	230pin, 0.50 mm pitch, SMT mount Infotainment Module Signal Socket (CT Au Plating: Au Flash)
CN113-230-0003VE(01)	230pin, 0.50 mm pitch, SMT mount Infotainment Module Signal Socket (CT Au Plating: Au 0.3um)

CN113 Series Screw-Down Mount Design

Secured screw-down PCB mounting offers stronger resistance against impact and vibration under extreme operating environment.

CN113 Series Applications

**Medical Hand-Held &
Stationary Systems**

**Automotive Infotainment &
Vehicle Navigation Unit**

**Industrial & Ruggedized
Computers**
