

# Hi-Power IR Emitter

ISO 9001:2015 | IATF 16949: 2016 | ISO 14001:2015

American Bright's new series of Hi-Power Infrared Emitters possesses many impressive features, such as sleek design, high penetrability, and long-distance emission to provide solutions for various applications!

## Types

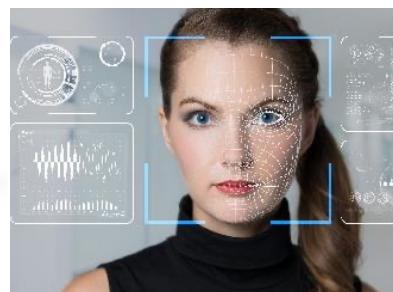

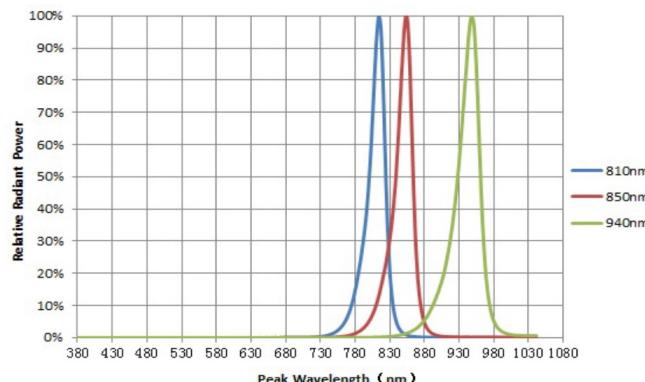

Emitting Wavelength: 810nm/ 850nm/ 940nm  
 Radiant Flux: 240-550mW @ 350mA  
 Viewing Angles: 60°/90°/120°

## Packages

3535 Ceramics / 3838 EMC

## Applications

- Drones
- Sensors (Automotive, Robots)
- Surveillance Systems
- IRIS (Face Recognition)
