# KJE32 SERIES PUSHBUTTON SWITCH

## HIGHLIGHT FEATURES -

The KJE32 Series is a heavy duty, industrial power pushbutton switch that's well-suited for factory environments. This switch features an electromagnetic coil that provides automatic protection against power outages and restarts, as well as circuit functions that can accommodate a remote trip for additional safety. It's TUV and UL listed with contact ratings up to 20A (AC), 25.1A (DC) and 240V.

## STANDARD FEATURES -

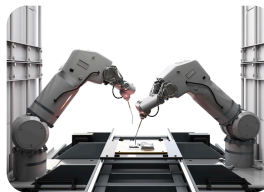

The KJE32 fits a rectangular 46mm x 22mm panel cutout. The switch's large size makes it easy to operate, while the bezel color comes in black or an eye-catching yellow. The red/green actuator buttons can be customized with four different marking styles.

## APPLICATIONS -

With its contact rating, agency approvals and safety features, this series is ideal for the following markets and industries:

INDUSTRIAL

AUTOMATION

CONSTRUCTION

AGRICULTURAL

## SPECIFICATIONS INCLUDE -

**Contact Arrangement:** 2NO, NO + NC, 2NO + NC

**Contact Rating:** 20(20)A 250VAC 1E5 T85/55 TUV(EN61058)

20(20)A 127VAC 1E5 T85/55 TUV(EN61058)

20(20)A 127VAC 1E5 T85/55 UL(EN61058)

25.1A 60VDC 10E4 T85/55 UL(EN61058)

**Agency Approvals:** TUV EN61058, UL EN61058

**Contact Resistance:** < 50mΩ

**Insulation Resistance:** Min 100MΩ

**Operating/Storage Temperature:** T85/55 / -20°C to +85°C

**Dielectric Strength:** 1,500VAC

**Electrical Life:** 10,000

**Travel:** Green Button- 4.7 +/- .3mm; Red Button- 2.3 +/- .3mm

**Moisture Protection:** IP55

**Actuation Force:** Green Button- 25N+/-5N; Red Button- 10N+/-5N

Visit E-Switch.com for more information. Established in 1979, E-Switch offers one of the broadest switch lines available today. E-Switch provides innovative and quality switches to the electronics, telecom, high tech, medical, instrumentation, industrial, audio/visual and appliance markets. Headquartered in Minneapolis, MN, and with offices in Singapore and Hong Kong, E-Switch's global reach extends to Europe, Asia and Latin America. Products include tactile, rocker, toggle, slide, anti-vandal, DIP, rotary, keylock, snap action, emergency stop switches and more. E-Switch has local representatives, engineers and account managers on hand to provide assistance and quick responses to 3D drawing requests and other inquiries, along with a top-tier sample program that allows engineers to examine and qualify switches for end-product applications.
