

Cable Management & Identification Solutions

Innovative solutions for the toughest cable management challenges.

MADE FOR REAL 

BUNDLE AND SECURE

HellermannTyton's innovative solutions for bundling and securing wires, cables and hoses are designed for high performance and durability. From high-heat and heavy duty cable ties, to hose clamps and edge clips, we offer a comprehensive variety for every application and environment.

Cable Ties

Available in specialized, high-performance materials, HellermannTyton cable ties come in a variety of sizes to accommodate wire and cable bundles in a range of applications. Choose from high heat and UV resistant nylons and stainless steel materials.

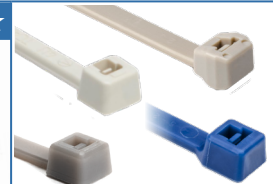

Inside/Outside Serrated Cable Ties

Heavy Duty Cable Ties

Grip Tie Strap

PVDF/PAEK/PEEK/ETFE Cable Ties

Soft-Grip Cable Ties

Releasable Cable Ties

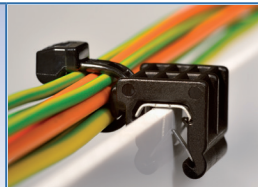

Aerial Support Ties

Low Profile Cable Ties

Self-Affixing Ties

Cable ties with an integrated mount offer fast and secure bundling. Choose from a wide variety of mounting styles, including edge clips, fir trees and button heads, for mounting to tubular frames and flat panels.

Edge Clip and Cable Tie Assemblies

Anchor Mounts

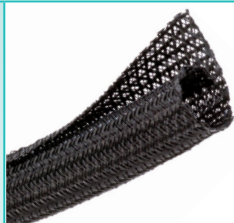

Magnetic Mounts Magnetic mounts and fasteners are ultra-powerful and hold cable runs without the need for holes, adhesive or mounting hardware.	 Magnetic Clips	 Magnetic Cable Tie Mounts	 Magnetic Bridle Rings	 Magnetic J-Hooks				
Bundle Separators Install between two cables or bundles to separate and prevent abrasion and wear.	 MOC and LOC Routing Clips and Clamps	 Double Head Ties	 Dual Clamp Ties	 Dual Swivel Saddle Spacers				
Clips and Clamps Choose from a wide range of clips and clamps to route and secure flat and round wires, cables and hoses, including edge clips for routing along flat edges.	 Metal Edge Clips	 LOC Clamps	 Snapper Hose Clamps	 High-Voltage Clamps with Soft Grip	 Adhesive Cable Clips			
Ratchet Clamps HellermannTyton invented the popular Ratchet Clamp family, exclusive solutions that adjust to a range of bundle diameters. Once mounted, they can be reopened without removing the clamp or the bundle.	 Ratchet P-Clamps	 Inline Ratchet Clamps	 Bolt Mount Ratchet Clamps	 Stud Mount Ratchet Clamps	 Quick2Clamps	 Mini Ratchet P-Clamps	 Threaded Rod Ratchet Clamps	 Ratchet O-Clamps with Soft Grip

ROUTING, PROTECTION & INSULATION

HellermannTyton offers a wide variety of cable protection methods and systems for varying degrees of protection against debris, liquids, abrasion, puncture and extreme temperatures. Manufactured using advanced materials to withstand heat, UV light, vibration and chemical exposure, our protection solutions offer superior performance and flexibility with minimal weight.

Braided Sleeving

From expandable and wrap-style sleeving to hook-and-loop closure options, HellermannTyton braided sleeving provides flexible, lightweight cable protection. Specialty sleeving materials protect against extreme temperatures, flames and electromagnetic interference. Orange color option enhances safety by indicating the presence of high-voltage cabling.

HelaGuard Flexible Conduit & Fittings

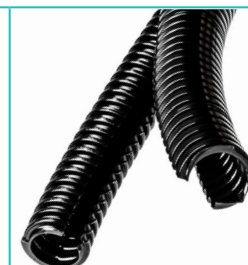

Comprehensive and versatile system includes flexible conduit, tubing, fittings and accessories that work together to provide flexible protection of wires and cables from liquids, dirt, UV light and more.

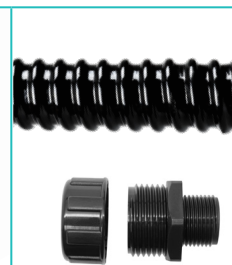

Nylon Corrugated Conduit

Liquid-tight Nylon Fittings

Double Slit Nylon Conduit

Tubing and Compression Fittings

Flexible Cable Protection

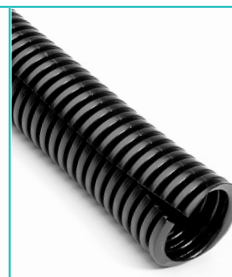

Flexible, semi-rigid materials route bundles and provide protection from abrasion, vibration, movement, pinching and sharp edges. Convoluted tubing features high UV protection for outdoor applications like solar farms.

Surface Raceway

Aesthetically appealing and highly functional, HellermannTyton's non-metallic surface raceway is used for low-voltage and power-rated applications. A unique "living hinge" on the surface raceway allows a secure closure and protection, with the added ability to open for rework without causing stress cracking.

Wiring Duct

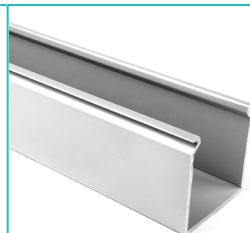

With a broad range of sizes, HellermannTyton's wiring duct line features smooth edges and multiple score lines that allow for safe and effortless finger break-outs; non-slip, write-on covers that remain secure even in high-vibration applications; rigid or flexible options; and external width dimensions for ease of specification.

Insulation and Installation Products

Offered in a range of colors, diameters, wall thicknesses and shrink ratios, heat shrink tubing provides dependable and secure protection for wire and cable splices. PVC electrical tapes insulate and identify wires. Use HelaCon Wire Connectors for easy push-in electrical connections.

IDENTIFICATION

Print labels and identify electrical, data and automation equipment with confidence. HellermannTyton provides high-performance labeling solutions that save time and help meet industry codes and standards.

Labels and Markers

Identify high-density fiber or copper cables or color-code your infrastructure components. Rite-On products replace tape for easier electrical wire marking. HellermannTyton makes label products that perform reliably indoors or out.

Printers and Software

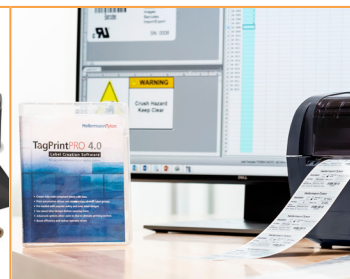

HellermannTyton thermal transfer printing systems, label design software and mobile apps enable easy, long-lasting labeling to help meet codes and standards. TagPrint® Pro's built-in print automation lets users create error-free labels in a fraction of the time.

Specialty Labels

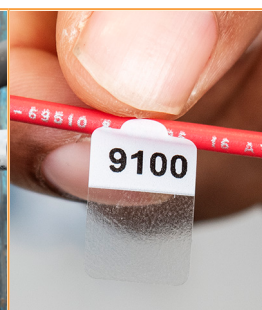

Paint mask labels can be painted over and still reveal their messaging. Hydraulic line labels withstand chemicals and harsh environments. ShrinkTrak halogen-free labels can be used where regulations require low smoke. Convenience packs make labeling residential solar installations fast and easy.

CABLE TIE TOOLS

HellermannTyton's innovative manual, pneumatic and automatic tool systems are designed to reduce installation times and labor costs while minimizing associated hand injuries.

Cable Tie Tools

EVO® Series manual tools are designed to be the most ergonomic tools on the market. Pneumatic and automatic systems integrate easily into high-volume and assembly line applications. Battery-powered productivity solutions like the ProCut tension-cut tool and CPK Hybrid fully automated application tool accelerate wire processing tasks with a single trigger pull.

UNIQUE APPLICATION PRODUCTS

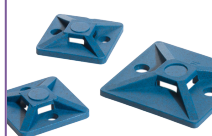

Metal content embedded in blue polymer makes these wire management products easier to detect where food is manufactured. Stainless steel products are virtually indestructible in the most extreme applications.

Metal Content Products

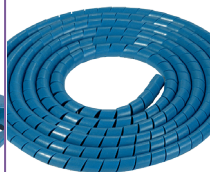

Bundle, secure, route, protect and identify while reducing risk in contamination-averse industries like food, pharma and beverage processing.

SUSTAINABLE SOLUTIONS

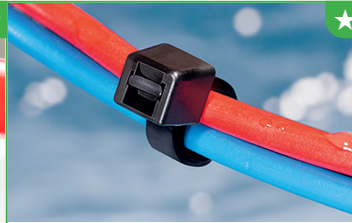

Meet Source, our family of wire management products sourced from sustainable resources. Using Source products, manufacturers and installers can get closer to their carbon neutrality goals.

The Source Family

ReSource products come from material leftovers in manufacturing; EarthSource products are made of natural, bio-sourced materials; OceanSource products come from plastics removed from the sea or renewable aquatic plants.
