

# Audio + Visual Alert

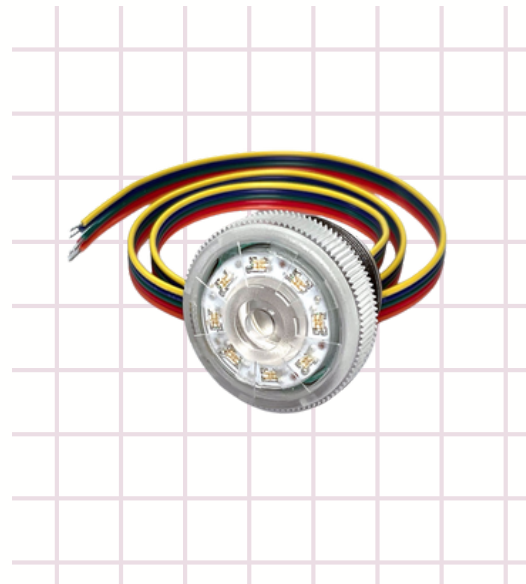

Experience a new level of awareness with our latest addition—the Lighted Indicator, designed to complement our trusted Audio Indicators. Whether in noisy environments, critical safety systems, or industrial applications, combining audio + visual ensures your alerts are always noticed.

Perfect for loud or busy settings, critical safety medical devices, or industrial applications such as control panels and food processing systems.

## Single Color

## Multi Color

Be sure to review the [Lighted Audio Buzzers White Paper](#) for more information.
