Re: New Product Announcement

New Switch Kits: Industrial Switch Sample Kit, Medical Switch Sample Kit

NKK is pleased to announce a new offering of switch kits for sampling NKK products. The kits each contain a variety of NKK parts typically used within applications by market for the industrial and medical markets.

Each kit comes with an assortment of switches including toggle, rocker, pushbutton, and keylock switches. An accompanying switch kit data sheet provides descriptions and specifications for all included products.

See below for breakdown of part number, description and image.

<u>Description</u> Industrial Switch Sample Kit – Includes samples of NKK products suitable for the industrial market	<u>Part Number</u> KIT23-INDUSTRIAL	 A clear plastic carrying case for the Industrial Switch Sample Kit. The top lid is open, showing an internal tray with various NKK switch components. The bottom tray is also visible. The case has a yellow label on the front that reads "Industrial Switch Sample Kit".
<u>Description</u> Medical Switch Sample Kit – Includes samples of NKK products suitable for the medical market	<u>Part Number</u> KIT28-MEDICAL	 A clear plastic carrying case for the Medical Switch Sample Kit.
