Orion Fans Delivers IP68-rated DC Fans For Harsh Environments

Product Name: IP68-rated DC fans

Product Description: Launch of 9 new IP68-rated DC fans series with 90 different models in total – and more coming in Q4

Key Markets/Applications: Designed for harsh outdoor and demanding washdown applications including alternative energy, commercial refrigeration, food & beverage processing, marine, outdoor machinery, outdoor telecom systems, transportation, and more

Key Benefits:

- Protection from dust and water
- Maximize air movement and heat dissipation to extend electronic component and system operating life
- 90 total models provide design flexibility to meet most any application requirement
- IP68-rated versions give customers additional protection especially when combined with louvered fan guards and specialty filters

Product Specifications:

- Air flows ranging from 14 to 300 CFM
- Available in sizes from 60mm to 172mm
- Special functions are also offered to meet application demands including alarm, tachometer, thermistor speed control, temperature sensor and more
- Meet UL, cUL, TUV, VDE and CE standards
