SLC NAND FLASH
MEMORY
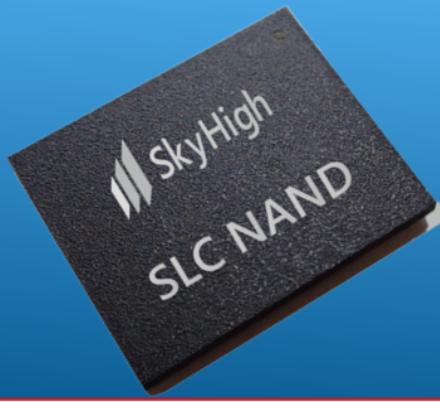

INTRODUCTION

SkyHigh Memory' s highly reliable SLC NAND products offer a high-density solution optimized for embedded systems. SkyHigh Memory products include differentiated features such as operating temperature support up to 105°C, AEC-Q100 qualification for automotive applications and packages as small as 52mm². All of SkyHigh Memory' s SLC NAND products are backed by SkyHigh Memory's world-class customer support and commitment of supply longevity. For applications where security is a priority, SkyHigh Memory offers the SL-2 SecureNAND™ and ML-3 product family which provides enhanced protection features.
